EXPERIENCE

Full-Stack Developer

JUL 2021 - PRESENT

Continuous learning and development of personal projects focused on modern web development technologies, consolidating technical skills in frontend and backend.

- Development of SPA applications with React and Next.js
- Implementation of RESTful APIs with JWT authentication
- Management of relational and non-relational databases
- Integration of cloud services with CI/CD using GitHub Actions, Docker and Kubernetes
- Development with TypeScript for more robust code
- Testing with Jest and Vitest to ensure software quality
- Use of global state management tools like Zustand and Redux

WordPress Developer

MAY 2022 - NOV 2024

Development of self-manageable websites with WordPress, specializing in creating custom solutions for various business sectors.

- Development of over 10 professional websites (e-commerce, news portals, landing pages)
- Implementation of custom CMS systems with WordPress and Elementor
- Integration of PayPal and Stripe payment gateways in WooCommerce platforms
- SEO and performance optimization with YoastSEO and LiteSpeed Cache
- Hosting and server configuration on GoDaddy from cPanel
- Creation of responsive and user-friendly interfaces for different devices
- Implementation of key plugins for functionality and security like Updraft Plus and Wordfence

LANGUAGES

Spanish Native

English Advanced (C1)

PROFILE

Full-Stack Developer with 4 years of experience building web applications with TypeScript, React/Next.js and Node.js. I design secure REST APIs (JWT) and data models in SQL/NoSQL with Prisma/TypeORM.

Additionally, I have developed over 10 websites with WordPress/WooCommerce, from landing pages and online stores to news portals with integrated payments and optimized SEO.

SKILLS

Frontend

React, Next.js, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS, Astro

Backend

Node.js, Express.js, NestJS, REST APIs

Databases

PostgreSQL, MongoDB, MySQL, Firebase, Prisma ORM, TypeORM

CMS & E-commerce

WordPress, Elementor, WooCommerce, PayPal, Stripe

DevOps

GitHub, Docker, Vercel, Netlify, AWS, Kubernetes

Tools

Git, VS Code, MCPs, Copilot, Postman

Testing

Jest, Vitest

CERTIFICATIONS

Backend & DevOps

Nest.js Scalable Backend Development (2025), Node.js From Zero to Expert (2025), Docker Practical Guide (2024)

Frontend & Frameworks

Next.js React Framework (2024), TanStack Query State Manager (2024), Astro Framework (2023), React: From Zero to Expert Hooks and MERN (2023), React: Real-time Applications with Socket-io (2023)
